

Advancing the world of health

Didier Morel
GCD Data Science
December, 2018

Healthcare challenges continue to evolve

Healthcare
cost and
financing

Patient and
healthcare
worker safety

Connecting
with patients

Antimicrobial
resistance

Tightened
regulations

Access to
affordable
healthcare

Chronic
diseases

Accountable
care

We also evolve
to help address
these critical
challenges

We continue to invest in additional capabilities

A leading provider of comprehensive healthcare solutions

2017

Clinical outcomes and disease management

- Accelerating end-to-end medication management, infection prevention and disease management

2015–2016

Medication management and patient safety solutions

- Integrating medication management solutions to reduce medication errors
- Maximizing outcomes in infection prevention and acute care procedural effectiveness, while improving patient and healthcare worker safety

2000–2014

Since 1897

Medical discovery, diagnostics and delivery of care

- Enabling safer, simpler and more effective drug delivery
- Improving clinical outcomes through accurate and faster diagnostics
- Facilitating understanding of the cell, cellular diagnostics and cell therapy

Our focus is on three strategic areas

1

Reshape medication management across care continuum

2

Prevent infections and **improve** safety

3

Advance the treatment of disease

Our innovative solutions help to address challenges across the patient care continuum

Keeping the patient at the center of everything we do

Sepsis

Kills **more than 250K people** in the U.S. each year^{1,2}

422M

Patients with **diabetes** globally⁸

1.5M

Patients harmed by **medication errors** each year³

≈240K

Lower extremity amputations per year, due to **critical limb ischemia** (U.S. and Europe)⁴

1 in 25

Number of patients who acquire at least one **infection** during care⁵

58%

Percent of in-hospital adverse events associated with **surgical care**⁶

every **3** minutes

Someone in the U.S. is diagnosed with a **blood cancer**⁷

Our goal is
to help you
succeed

**Improve patient
and healthcare
worker safety**

**Improve patient
outcomes and
experience**

**Control total
cost of
healthcare**

**Improve care
delivery and
capabilities**

Thank you!

BD

Advancing the
world of health

Innovation timeline

1897

Becton, Dickinson and Company opens its first office in New York City

1924

A BD syringe delivers the first insulin dose ever

1940s

First sterilization technology for devices

1950s

First disposable syringe produced, at cost, for Dr. Jonas Salk's field test of the polio vaccine

1949

BD Vacutainer® blood collection tube: the first evacuated blood collection tube, improving quality and safety of blood collection

1961

BD Plastipak™ syringe: first disposable polypropylene syringe on the market

1971

Babybird ventilator: first infant ventilator

1980s

First safety syringe and plastic sharps disposal to protect healthcare workers

1981

BD BACTEC™ 460TB instrument: first automated system for TB testing

1989

Pyxis MedStation® 1000 system: first automated medication dispensing cabinet

1985

First to harness the highly specific binding properties of monoclonal antibodies

2015

BD completes acquisition of CareFusion

2017

BD received multiple FDA 510(k) clearances, including one for its FACSlyric™ flow cytometer system with BD Multitest™ assays

2017

BD completes acquisition of Bard
